

The FCC should not implement any proposal that would lessen Indiana's Telephone Privacy law protections. Indiana's Telephone Privacy law has improved my time at home with my family since I don't have several interruptions by unwanted phone calls every night.

I used to receive 20-30 calls per week, now I only receive one or two. I chose not to receive these calls and I think my privacy should be respected. This new law was one of the best things that has happened in a long time. Please leave it be.
